DETAILED ACTION

Allowable Subject Matter

Claims 26, 29, 32 and 35 are allowed. The following is an examiner's statement of reasons for allowance:

Applicant discloses optical devices comprising a supporting substrate, a wavelength dividing filter, a light receiving element and a lens element, said lens element includes a lens portion and a projection portion, and wherein said projection portion supports *an external edge* of the lens portion and is disposed between a groove on the supporting substrate and the external edge of the lens portion. Previously cited Korenaga reference does not disclose a projection portion supporting external edges of lenses **85**. Relevant prior art available also does not teach a projection portion as claimed. This improvement enables high accurate positioning, miniaturization and handling. It is the examiner's position that prior art taken alone or in combination does not render obvious the lens element as discussed above, in combination with rest of the limitations of the base claims.

Claims 27, 28, 30, 31, 33, 34 and 36-55 are allowed as dependent claims of allowed claims 26, 29, 32 and 35.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
